Monetary. The advices from Europe are important. The figancial panic is now still further developed by every arrival. The Etna, with dates to the 17th, brings \$1.500,000 in specie, and shows that the financial crisis in France continued unabated, and it was rumored that the Bank of France would suspend specie payments, and advance the minimum of discounts. The rates now, both in Paris gold from London on Paris account rather than reduce to a lower point the bullion in the Bank of France. Consols declined 1 \$ ct., closing at 911@921 for money, and 917@917 for account. The New York Bank statement for last week shows a large contraction of loans and deposits. The contraction of loans is not, however, in those of a commercial character, and the falling off in deposits results mainly from the payments into the Sub-treasury. The loss of specie is much less than was generally anticipated, in view of the fact that the Sub-treasury received \$3,600,000 during the week. The banks held on Monday half a million more than the amount shown by

I stood up in that meeting and said that when the meeting of the mechanics and workingmen was held. I should be there to express my sentiments as a Virginian. THIRTY-SIXTH CONGRESS.

REPORTED FOR THE ALEXANDRIA GAZETTE.

In Senate, Wednesday, Jan. 30. The annual agricultural report from the Patent Office was received and referred to the Committee on Printing.

Mr. Bigler presented several memorials, among the rest a memorial from the working and London, being 7 pet., any further advance must be severely felt. It was proposed to send distinction, gathered in town meeting, in favor of the Critter den resolutions. He said that the latter was a memorial representing fifty thousand working men gathered in mass meeting from anxiety for the safety of the Union. They in no way countenance disunion, but are willing to yield everything reasonable to the South, and think the resolutions of the Senator from Kentucky eminently just and wise. He moved that they be printed.

Mr. Cameron said that he also had a petition to present from the working men of Philadelphia, but different in sentiment .-He referred to the speech of his colleague last week, and said that he had been charged with endorsing his speech. He certainly never had endorsed the whole of it, but was ready and willing to do anything to bring peace and safety to the country. He first, however, wished to know how what he should do would be received, and if it would bring back the leaders of the rebellion in the South, for he considered it rebellion.

Mr. Mason said that the Senator from Pennsylvania had said he was willing to make concessions. The Southern States did not ask concessions in any form. The South has no complaint of the Constitution, but that the Constitution has been violated, and its rights disre arded. They never asked concessions, but only asked that the Constitution be carried out. The South would be humiliated if it asked anything else, and the North bumiliated if it granted more. The

South only asked for its rights. Mr. Hale said he had been listening since 70(@73c. Provisions steady; mess pork \$18.25. Mr. Hale said he had been listening since Lard 10½c. The hour of 1 o'clock baving arrived, the Chair said that the Pacific Railroad bill was the unfinished business of yesterday, and that a motion to print the President's message was the special order, the Senator from North Carolina, (Mr. Ciingman) having the floor upon that motion.

Mr. 'Gwin appealed to Mr. Clingman to give way, and allow the Pacific Railroad bill to be taken up.

Mr. Clingman yielded, with the understanding that he should have the floor, at 1 o'clock on Monday next.

Mr. Latham moved to make the motion to print the message, a special order for to-morrow, at I o'clock, at which time he desired to address the Senate.

The Senate then took up the Pacific Rail road bill, and a few additional amendments having been agreed to, the bill was read the third time, and passed by yeas 37, nays 14,
